

Rights and Permissions

The CSM Ethics Bowl makes extensive use of materials developed by the National High School Ethics Bowl at the University of North Carolina at Chapel Hill.

We use the rules, cases, scoring criteria, and other materials developed by the NHSEB throughout the competition. Because we are not located in the United States, and because our competition is not open to other schools, we are not part of their organization and our students are not eligible to compete in the national competition.

We remain grateful to the NHSEB for making their materials public. Please do not reproduce any of these materials without attributing them to the NHSEB.

For more information about the organization, please visit them [on the web](#).
